# **TORO**<sub>®</sub>

# MORE DURABLE. MORE RELIABLE.

The ProLine H800 direct collect rotary mower with high-lift collection is engineered for maximum lifetime and minimum downtime. The Toro out-front deck features a welded bull nose bumper, heavy duty caster forks and long-lasting skid protection. With a powerful 19.2 kW (26.1 hp) engine, a large 41 liter (10.8 gallon) fuel tank and 810 liter (214 gallon) capacity hopper, this mower can go longer without stopping – you don't even have to stop to adjust the height of cut! And when the hopper gets full, the deck automatically shuts off to prevent overfilling or uncollected grass. Then, the high lift system makes it effortless to

empty clippings directly into a truck bed. Smart Cool® with an automatic reversing fan and automatic deck cleaning wipers. Excellent sight lines make the ProLine H800 perfect for trimming around landscaping in urban areas and parks. And the high performance cutting system delivers a clean quality of cut – crucial for sports fields and business complexes.

# toro.com

## FEATURES

#### Less Downtime

• Toro deck with welded bull nose bumper, heavy duty caster forks and long-lasting skid protection

• Large 41 liter (10.8 gallon) fuel tank allows for a full day of operation

• High-volume 810 liter (214 gallon) hopper with 1,950mm (76.8") maximum dump height for easy clean up of clippings

#### **Excellent Collection**

• Direct grass collection with Smart AirFlow system to maximise collection performance

- Adjustable full hopper sensor with automatic deck shut off to prevent overfilling
- Automatic deck cleaning wiper in discharge area to prevent clogging

#### Ease of Maintenance and Operation

• Smart Cool System with Auto Reversing Fan prevents overheating of the engine

• Quick height of cut adjustment from operator seat

• Tilting deck for easy access to blades for daily clean-up

# **PROLINE H800 SPECIFICATIONS\***

## PROLINE H800, MODEL 31050

ENGINE	Yanmar; 3-cylinder, liquid-cooled, diesel. Rated Power 17.5 kW (23.8 hp) @ 3000 rpm, Gross Power 19.2 kW (26.1 hp) @ 3000 rpm. High idle: 3210 rpm; Displacement: 1.116 liter. Remote mounted Donaldson air filter.
FUEL CAPACITY	41 liters (10.8 gal) diesel
TRACTION DRIVE	Engine-mounted hydrostatic transmission powering four hydraulic wheel motors providing dual-diagonal full-time all-wheel drive.
TIRES	Front: 23 x 10.5-12 turf tires. Rear: 18 x 7.5-8 turf tires.
AIR CLEANER	Dry, replaceable primary and safety element.
INSTRUMENTATION	Indicators: glow indicator, battery discharge, low engine oil pressure, blocked air cleaner, grass collector raised, parking brake on, work light on, headlight on, hazard light on. Gauges: hour meter/service indicator, engine temperature gauge, fuel tank level gauge with low level lamp.
CONTROLS	Ignition switch, throttle lever, single foot-operated traction pedal, service brake with parking brake latch, switch for adjusting the height of cut.
GROUND SPEED	Transport: 0-15km/h (9.3 mph), continuously variable. Reverse: 0-10km/hr (6.2 mph)
RADIATOR	Smart Cool®. Electric with automatic or manual reversing for cleaning.
MAIN FRAME	All welded formed-steel frame
BRAKES	Service brake: Traction pedal provides dynamic braking through hydrostatic transmission. Parking brake: Foot pedal actuates drum brakes on front wheels. Foot operated lock retains pedal in actuated position.
STEERING	Rear axle with hydraulic steering. Adjustable tilt steering wheel with 21/3 turns lock to lock.
ELECTRICAL	55A/with P terminal alternator. Battery: 55B24
INTERLOCKS	Prevents engine from starting unless traction pedal is in neutral and deck is disengaged. If operator leaves seat with deck engaged, engine stops. If operator leaves the seat with the unit out of neutral, engine stops. Engine stops if parking brake is engaged and traction pedal not in neutral.
SEAT	Low profile mechanical suspension, retractable seat belt
LIGHTS	Work and road lights standard
HYDRAULICS/COOLING	9.5 liter (2.5 gallon) capacity, fan-cooled oil cooler, high pressure cartridge filter
PTO CLUTCH	Belt-driven, Ogura electromagnetic clutch, with magnetic blade brake, powering drive shaft to gearbox on deck. Deck shuts off automatically when grass collector is full.
ROLLOVER PROTECTION	2-post standard foldable ROPS, meets ISO 21299
FUEL ECONOMY	3.9 liters/h (1 gph)
SAFETY	ISO EN 5395 (CE)
CERTIFICATION	Certified to meet the CE Machinery Directive. Certified to meet Electromagnetic Compatibility Directive 2014/30/EU, Physical Agents Directive (Vibration) 2002/44/EC, Outdoor Noise Directive 2000/14/EC, and Battery Directive 2000/66/EC. Meets emissions regulations EU Stage IIIA. Reg. Compliance Mark (RCM) AS NZS CISPR 12:2009
WARRANTY	Two-year limited warranty. Refer to the operator's manual for further details.
