IDEAL FOR SPRAY TANKS & SPRAY EQUIPMENT

POWER CLEANER 200

POWERFUL, SAFE. SUSTAINABLE.

VOC reduced!

CAN BE FOAMED

DILUTABLE

H2O WATER-BASED

A concentrated, water-based cleaner that lifts grease, oil, sap and ground-in grass from mowers, sprayers and groundcare machinery - with none of the hazards of solvent degreasers. Designed to remove the toughest contamination from spray tanks, lines, nozzles and equipment.

WHY CREWS CHOOSE IT

- **Solvent-free chemistry** - no harsh fumes, safer for operators and the workshop.
- **Readily biodegradable** - rinses away without harming turf or watercourses.
- **Highly concentrated** - dilute to suit the job; one drum goes a long way.
- **Versatile** - decks, chassis, sprayers, tools, workshop floors.

APPLICATIONS

- Removes pesticide & herbicide residues
- Removes fertiliser, algae, biofilm & organic buildup
- Removes scale, hard-water deposits & odours

EASY TO USE

1. **Apply via a foam applicator**
   Spray inside & outside of tank
2. **Dwell time:**
   Outside: 4-5 minutes
   Inside tank walls: 25 minutes
3. **Power wash off thoroughly**
4. **Check pH of water inside tank**
   once refill is complete
5. **Repeat if necessary for** heavier contamination

CAN BE FOAMED

GENERAL CLEANING MAINTENANCE

NATURE BOOST ECO 100

A plant-based wash-down and maintenance cleaner that leaves machinery hygienically clean - helping you break the cycle that spreads turf disease between sites. Suitable for washdown systems.

WHAT IT DELIVERS

- **Hygienic wash-down** for mowers, blades and transport between jobs.
- **Gentle but effective** - tough on soiling, kind to surfaces and seals.
- **Renewable, plant-based** raw materials with a low environmental footprint.
- **Pleasant in use** - no solvent odour in enclosed wash bays.

PROTECT YOUR TURF

STOP THE SPREAD OF TURF DISEASE

Dirty machinery carries fungal spores, soil and clippings from one green to the next. A disciplined wash-down routine is one of the simplest ways to keep disease in check.

1. **Clear** loose debris before leaving each site.
2. **Wash down** with Nature Boost ECO 200.
3. **Move on** clean - no cross-contamination.

TURF TANK®

OFFICIALLY RECOMMENDS CLEANING WITH

BIO-CIRCLE®

A great reminder that the work doesn't stop when the season does!

We're proud to work alongside partners like Mark Tomlinson who go the extra mile to keep the robots clean, maintained and ready to hit the ground running.

THE COMPLETE BIOSECURITY RANGE

CLEANING SOLUTIONS THAT PROTECT WHAT MATTERS

GLASS & BODYWORK
